

Seed Enterprise Management Institute (SEMI):

SEMI was initiated by a team led by Prof. Agnes W. Mwang'ombe at the University of Nairobi in 2010 through financial support under the Programme for Africa's Seed Systems (PASS) in AGRA. SEMI is a collaborative program and its role is to provide skills through training of seed personnel in the Seed sector so as to improve seed production and delivery systems within sub-Saharan Africa.

Designed Courses include seven Short Courses are for skills enhancement.

These courses are in modular format and include: -

- Seed Crop Production
- Seed Drying, Processing and Storage
- Seed Business Management
- Seed Marketing
- Crop Seed Production Field Diagnostics

- Plant Protection Organizations (NPPO's) Quality Regulators
- Seed Quality Assurance and Seed Enterprise Quality Management

Who should attend:

This course is intended for persons dealing in the production of certified seed in seed companies and government officials offering services in certified seed production.

Benefits of the course:

The short courses are intended to instill the following skills:

- Good understanding of seed production management and quality assurance regulations to achieve seed production goals;
- Analytical and interactive ability to enable sound planning and implementation of seed production enterprise;
- Ability to diagnose seed production problems and determination and application of practical solutions;
- Managerial capacity in design and implementation of seed production strategies.
